WEEKLY REPORT
Region 9
Environmental Protection Agency
Week of 11/28/2016
Land Division

Highlight of Past Week

Significant Items for Next Week

Internal to Region 9

Cortina Landfill: [REDACTED] **Deliberative Process (b) (5)**

[REDACTED] CIWMI requested a meeting and release of EPA's most recent technical review of CIWMI's Site-Specific Flexibility Request (SSFR). The SSFRs are required because CIWMI's proposed landfill is in Indian Country on land that is within a seismic impact zone and landslide area, and cannot be constructed without EPA approval. The proposed landfill has been on hold since 2013 when the BIA Regional Administrator issued a lease cancellation notice, which was overturned and reversed October 29, 2015 by DOI's Board of Indian Appeals, reinstating the lease. (Wall x2-3381)

Tour of Kettleman Hills Hazardous Waste Landfill: Tom Huetteman, Barbara Gross, Frances Wicher and Margaret Alkon (ORC) toured Chemical Waste Management Inc.'s Kettleman Hills facility on November 30 and met with CWMI management to discuss the application to renew the facility's PCB approval for storage and disposal. (Wicher x2-3957)
